

# EchoVera ChronoScan

OCR Scanning Software

**ChronoScan is cost-effective OCR scanning software that has everything more expensive solutions have at a reasonable price.**

**Key benefits include:**

- Reduces data entry, speeding up processing time
- Automates the accounts payable process
- Makes accounts payable activity visible

**ChronoScan is rated “essential” in reviews and gets high marks for ease of use:**

- Intuitive interface
- Attractive, well designed screens
- Powerful and fast
- Has assisted auto fields
- Extracts text from PDF Files
- Uploads documents to your ERP or Workflow system

**Canadian North**, northern Canada's leading airline company, is using **ChronoScan** to help process, approve and schedule the 40,000 supplier invoices it receives annually at its offices in Edmonton, Calgary and Iqaluit.

**“Since implementing EchoVera’s e-invoicing solution we’ve cut our processing time in half. We’re saving money with every invoice we pay. Definitely a huge improvement over our manual process.”**

*- Jeff MacPherson, Canadian North*
